Facts of Internet Memes

An Internet meme is something famous on the Net such as an image, a video, or even a person. It is usually created when someone published something, and this thing was shared widely over the Internet.

A meme usually comes with a picture along with some text on the top or bottom. If it only has a picture but the picture is very funny, it still can be a meme. While people are sharing the meme, they often change the words or sentences to show different interesting twists and new stories of the picture.

Two kinds of memes are "dank memes" and "dead memes". Dank memes have a lot to do with readers' daily life and make them laugh. They are popular and people all around the world love them. (But sometimes they can be offensive to some people.) Dead memes are known to have not been used for many years. People don't think they are funny anymore.

📖 text 文字；publish 發行；twist 轉折；offensive 冒犯的

( ) 45. Which of the following is **NOT** true about the two kinds of memes?

(A) Dank memes are close to people's everyday lives.

(B) Dank memes are older than dead memes.

(C) Dank memes may sometimes make some people mad and angry.

(D) Dank memes are more interesting than dead memes.

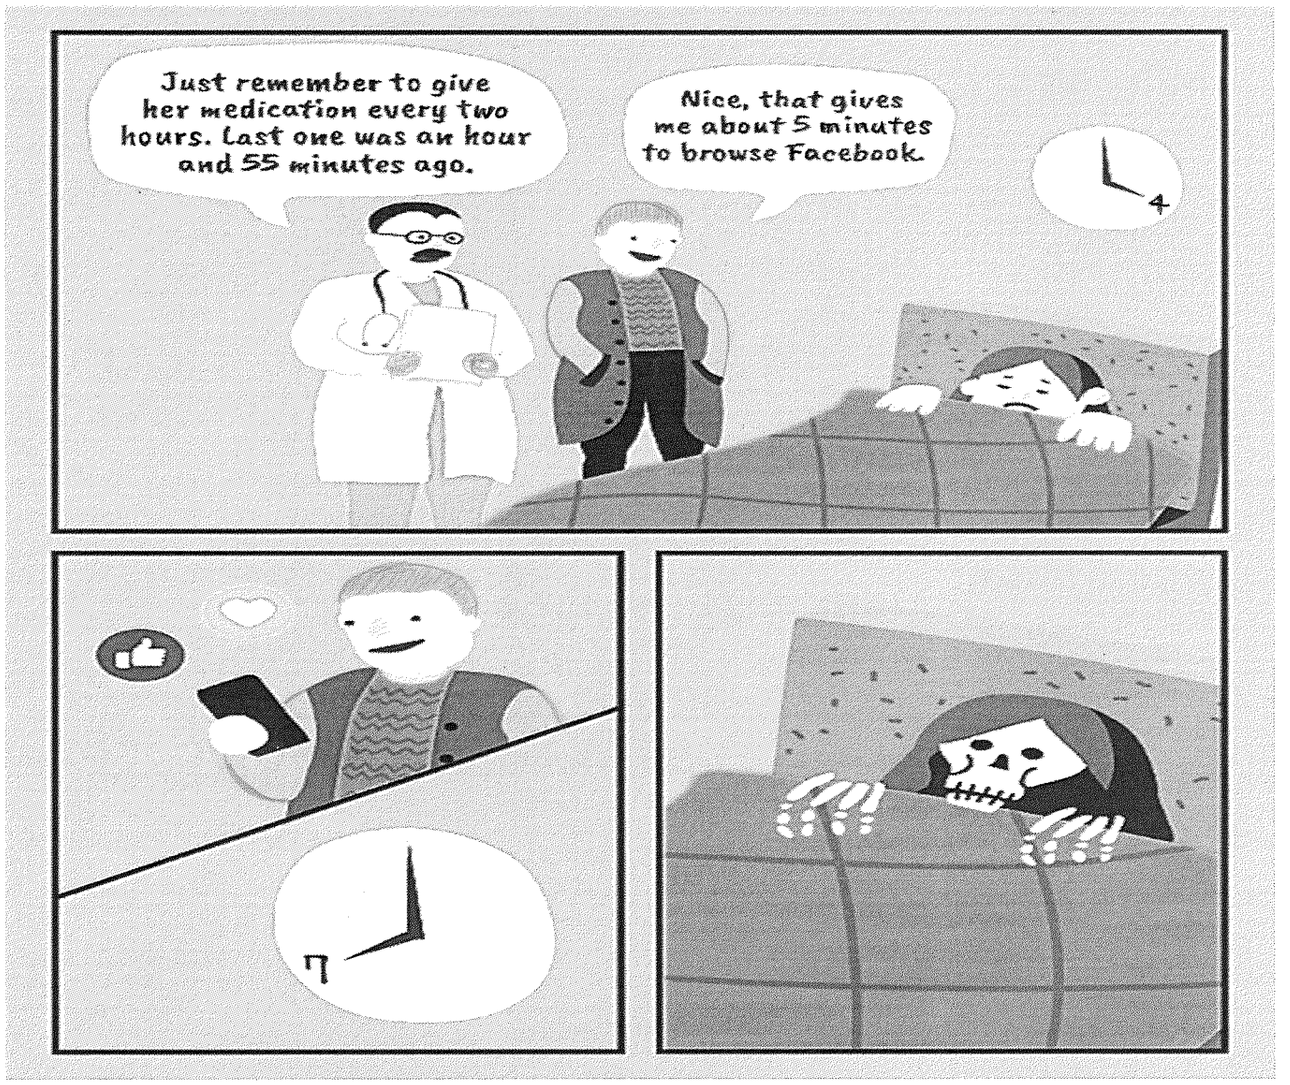

( ) 46. What do you think the following meme is about?

(A) The doctor gave the wrong medicine to the sick woman.

(B) The man was too worried about taking the medicine in time.

(C) The woman was too sick to stay alive for more than two hours. 📖 alive 活著

(D) The man enjoyed surfing the Net too much and forgot the doctor's orders. 📖 order 指示

A study following 450,000 people in the UK has found that babies born during the summer months of June, July, and August are heavier when they were born and taller after they grow up, as well as healthier.

That sounds interesting, doesn't it? This could be that the mothers of summer babies are able to enjoy more sunshine, so their babies get more Vitamin D. Winter babies born during the months of December, January, and February, however, are lighter at birth and shorter when growing up.

The study also found some kinds of diseases like heart disease may be brought on by the season of birth. For example, people born in March and April are at higher risk of heart disease. As for people born in May and July, they have the lowest risk of disease.

But do people born at the end of the year have to worry all the time? No, they don't need to **fret** at all. Exercising, eating healthy food, and being happy are more important than what month you were born to decide your health!

📖 as well as 也　Vitamin 維他命　birth 出生　disease 疾病　risk 風險

( ) 47. What does **fret** mean?

(A) Excite. (B) Worry about. (C) Expect. (D) Break down.

( ) 48. Which do we know from the reading?

(A) Birth month is the least important thing in deciding one's health.

(B) Winter babies have more serious heart problems than summer and fall babies.

(C) The study follows about forty-five hundred thousand people around the world.

(D) Summer babies are usually taller, heavier, and healthier than winter babies.

( ) 49. What is the best title for the reading?

(A) The Best Months for Mother to Have Their Babies

(B) Is There a Link Between Birthdays, Height, And Disease?

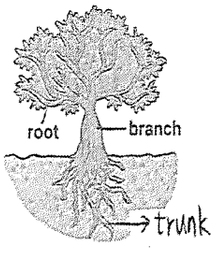

(C) People Born in Some Months May Get Sick More Easily

(D) Is There a Link Between Health, Exercise, And Month of Birth?

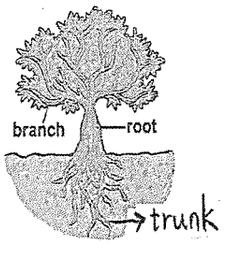

I'm a little tree, oh so small, In years ahead, I'll grow so tall! With a lot of water, sun, and air, I will soon be way up there! Deep inside the ground, my "roots" are found, Drinking water from underground. Water from the roots my "trunk" receives, Then my "branches" start making leaves.	As I grow so tall, The leaves on my "branches" make food for all. Soon my trunk and branches will grow wide, And I'll grow more bark outside! In years to come I will be tall, Losing my leaves when it is fall. But when spring comes, new leaves will show. How do trees grow? Now you know!
