Do you know why we should protect our earth and how we can save it? We people care about ourselves and do lots of damage to our earth. If we can cut down fewer trees, we can protect our earth from being damaged. When it rains heavily, we don't need to worry about landslides. Then, the houses won't move from the top of a mountain to the bottom of it. If we can take more public transportations or share a taxi, we can keep the air cleaner. If we can bring our own spoons, chopsticks and shopping bags, we can help reduce trash. If we can eat less meat, we can have a healthy body and do less damage to our earth.

The Earth is always a giving planet. It gives us fresh air, clean water and a comfortable place. Without it, we can't live. It's just like our mother, but we take it for granted. We can't find any place like it, so we should love and protect it because we only have one earth.
